## Frequently Asked Questions

### I want to carry out Inter-bank fund transfers. How?

To carry out inter-bank fund transfers, firstly you have to be a **HSBC Personal Internet Banking (PIB)** customer. From the PIB platform, you have to complete the Inter-bank Fund Transfer registration process. Once you complete the registration process, you can begin inter-bank fund transfers from the following working-day onwards.

### How do I register for inter-bank fund transfer?

- ▶ Log into your PIB account.
- ▶ Select "Contact Centre" from the left-hand menu.
- ▶ Then select "Send message".
- ▶ Select "General Enquiries" from drop-down as message subject.
- ▶ Type in the message "I have read and understood the BEFTN agreement and have agreed with all the Terms and Conditions specified in BEFTN Agreement. I request you to activate the BEFTN funds transfer facility for my account and authorize you to set my daily transfer limit to BDT500,000 so that I may use the said facility through Personal Internet Banking".

After you follow the above process, you will be registered / eligible for BEFTN from the following working day. Please note that registration for BEFTN is a one-time requirement that is necessary before your first BEFTN transaction.

### How do I carry out inter-bank fund transfer from PIB?

You can do inter-bank fund transfer very easily by following the below steps:

- ▶ Log into your PIB account.

### How long does it take for my fund to reach the beneficiary bank?

The cut-off time for this service is **4:00pm** on a business day. If you carry out any transaction before 4:00 PM on any business day, it is sent to receiving banks via Bangladesh Bank on the **same day**. However as per BEFTN rules, receiving banks **credit the fund to the beneficiary's account on the following business day if everything is in order**.

Usually there is no delay in the BEFTN processing except for the point 27.4 of T&Cs for RBWM (click on below link).
